PRACTICAL AGRICULTURE AT MATRC

Caritas Kasanaensis uses MATRC as the demonstration farm to trains farmers in *sustainable agricultural practices* inculcating in them principles of farm management that lead them on the road to self-reliance. At MATRC farmers learn the following:

- Banana cultivation
- Pig rearing
- Chicken rearing
- Fish farming
- Maize growing and post harvest handling
- Livestock (especially cattle) management

MULUNGYOMU AGRICULTURAL TRAINING AND RESEARCH CENTER (MATRC)

Through MATRC, We help farmers improve agricultural practices so they can increase their yields – sometimes even tripling them – generating better income and prospects for the future.

MATRC- THE AGRICULTURAL TRAINING HOME FOR CARITAS KASANAENSIS

Maize Sprouting out at MATRC

Mulungyomu Agricultural Training and Research Center is the Agricultural Training grounds for Caritas Kasanaensis.

The Center is located in Nakaseke district, Kikamulo Sub-County, Kigegge Parish, 23 kilometers from Kasana-Luweero Diocesan Headquarters.

MATRC is being developed into an Agricultural Demonstration Institution that helps farmers to transfer the skills learned into their own fields for their own economic growth.

The Vision of MATRC :

To be the Center of Excellence for Agricultural Production, Training, Marketing and Research.

Mission of MATRC:

To improve the economic conditions of the people through: agro-production, marketing, training, and research initiatives.

Values of MATRC:

- Hardwork
- Teamwork
- Integrity
- Compassion
- Reliability
- Quality Services

Strategic goals of MATRC:

1. To enhance agro-production and productivity along the value chain so as to be competitive in the market;
2. To undertake applied research for knowledge and skills development.
3. To contribute to global efforts towards environmental conservation
4. To build capacity at institutional level in governance, management and leadership for efficient and effective service delivery.
